The Code of Trust: Safeguarding Businesses in the Era of Emerging Technologies

Event organized by the Chamber of Commerce Switzerland - Romania through its IT Working Group

The threat landscape is vast, complex, and rapidly evolving. Cyber risks such as malware, deepfakes, and misinformation pose threats to supply chains, financial stability, and democracy. There are also new AI-specific risks. Cyber security in the coming years will entail considerations of digital humanism, human rights, democracy, inclusion, and diversity.

In this context, the Chamber of Commerce Switzerland-Romania, IT training center **Swiss WebAcademy** and IT companies **Team Extension** and **mindit.io** will organize “The Code of Trust: Safeguarding Businesses in the Era of Emerging Technologies” event to emphasize the expected impact of new technologies and new vulnerabilities in business. *We thank our sponsors: Swiss WebAcademy, Team Extension, mindit.io and Rerat Helvetia.*

Our special guest will be H. E. Mr. Massimo Baggi, the Swiss Ambassador to Romania.

The IT experts and public figures listed below will be sharing their insights with the attendees:

- Moe Jame, CEO, Team Extension
- Mihai Sătmărean, Fractional CTO | DevOps Expert (Germany)
- Dumitru Pascu, CTO, mindit.io
- Stelian Mustea, COO, Webitfactory
- Luca Tenzi, International expert speaker and author, visiting and guest professor (Switzerland)
- Vassilios Manoussos, Manager, The Cyber Academy | Forensic Scientist | Expert Witness in Digital Evidence @ Strathclyde Forensics Ltd (Scotland)
- Ovidiu Mihăilă, Founder, fundingloop (Switzerland)
- Sorin Stănică, Head of Crime Prevention Bureau, The Romanian Police Force
- Gabriela Folcuț, Executive Director, Romanian Association of Banks
- Fraga Țariuc, President & founder, Women4Cyber Romania

The Chamber of Commerce Switzerland – Romania (Camera de Comerț Elveția – România, CCE-R) was legally set up as a Romanian non-profit Association in December 2000 and has been active since then.
